1. The amendment by the applicant will not be entered as it raises new issues that will require further consideration and search. The amendments to independent claims 1, 7, 13, 19, 25, and 31 raise new issues as they now claim "identifying a work process for processing the job based on the second status". This more narrowly defines the second status. The relationship between the status and the work process was not defined and the claim previously had a broader scope. The amendment to the claims of having the work process being based on the status is a new issue and will require a new search. Therefore, the amended claims 1, 7, 13, 19, 25, and 31 require further consideration.
